

The Texas General Land Office (GLO) has created [TxCoasts.com](http://TxCoasts.com), a web application that provides an easy way for local residents and visitors to locate public access points on the Texas coast, along with the amenities that are available at each access point. Typical examples of amenities included in the application are boat ramps, camp grounds, wildlife viewing areas, RV areas, fishing destinations and much more.

Prior to [TxCoasts.com](http://TxCoasts.com), similar information was made available to the public through a popular GLO hard copy publication called the Beach and Bay Access Guide (BBAG), but this was difficult to update and costly to print. [TxCoasts.com](http://TxCoasts.com) provides the same information and more in a format that can be easily updated and is a web-based application that is fully compatible with computers, tablets, and smart phones. This application gives users the ability to take full advantage of all the Texas coast has to offer anytime and anyplace.

GLO has created an 8.5 x 11 poster to promote [TxCoasts.com](http://TxCoasts.com). If you would like to help promote [TxCoasts.com](http://TxCoasts.com), feel free to print out the attached poster for distribution and/or display. We have also attached an image you can use if you would like to place a link to txcoasts.com on your web page. Please forward this email to anyone that you think may have an interest in [TxCoasts.com](http://TxCoasts.com).
